Benicia
Community
Foundation

St. Paul's Community Meal is reaching out to you, our community to ask for help to continue to feed our local families, children, and seniors.

To help our urgent needs and the program's long-term sustainability, St. Paul's Episcopal Church Community Meal and the Benicia Community Foundation (BCF) have partnered to address the program's fundraising and financial challenges. With a decline in support from the Food Bank and rising food costs, the need for additional funding has become critical. Donations have also decreased over the past several years, making it essential to raise funds to continue the program.
